POTENTIAL HAZARDOUS WASTE SITE PRELIMINARY ASSESSMENT

Blue Spruce

101

Site Name

Site ID Number

Building 652, Raritan Center

Edison, Middlesex County, NJ

Address

City, State

Date of Off-Site Reconnaissance February 28, 1985

SITE DESCRIPTION

This site is located in a section of the Raritan Center which is largely undeveloped marshland, several acres in extent, and adjacent to The Raritan River. The area was formerly arsenal barracks. Railroad tracks, now covered with dirt, run in several rows beside corrugated metal sheds. Much of the marsh and the buildings were destroyed by fire in May 1985.

Two building, numbers 651 and 652, were occupied by Blue Spruce between 1970 and 1972 after the Chemical Insecticide Corporation (an associated company) closed. Allegedly, pesticides were blended and packaged during the years of operation.

Building 652 burned down in the May 1985 fire and building 651 was also destroyed by fire.

PRIORITY FOR FURTHER ACTION: High _____ Medium _____ Low ☒ None _____

RECOMMENDATIONS

Low priority is recommended pending the current NJDEP involvement. NJDEP/HSMA-Bureau of Abandoned Sites collected soil samples at this location May 9, 1985. Refer to Robert Kunze for further information.

Dr. Richard Dewling, Deputy Regional
Administrator EPA Region II
Woodbridge Avenue
Edison, New Jersey 08817

Dear Dr. Dewling:

Chemical Insecticide Company, Whiteman Avenue, Edison

Attached please find the information you requested concerning the Chemical Insecticide Company site on Whitman Avenue.

Also, enclosed are photo copies of the attendance sheets (those who signed) from the public meeting on Monday, June 20, 1983 at 7:00 P.M. for your public relations staff.

The fencing of the site is complete as of today, and this office will have a key, just in case officials require access to this site in the future. For your records the current owners are Piscataway Associates, Inc. Mr. Wilson R. Kaplan and Mr. Donald Benson, principals. All contact should be made through Mr. Arnold Litt, their attorney, at 201-836-9100.

The owner/operator of the Chemical Insecticide Corporation, Mr. Arnold Livingston, also conducted business as Blue Spruce, Inc. in Buildings 651 and 652 in the Raritan Center (see enclosed letter to Summit Associates) from approximately 1970 - 1972. Mr. Livingston still operates a pesticide company currently known as TIFA, Ltd. headquartered in Sterling, New Jersey. We believe that Mr. Livingston resides at 50 Division Avenue, Millington, New Jersey (T.M. Block 119, Lot 1).

If we can be of further service, do not hesitate to call. Again our sincerest thanks to you personally and all the members of your most professional staff for your leadership and assistance.

I remain,

Trenton, New Jersey 08625

Dear Mr. Burke:

Buildings 651 and 652
Raritan Center, Edison, New Jersey

Pursuant to our recent conversation, this letter is for the purpose of placing our discussion on the record. The following information is either derived from interviews, official documents, or Health Department inspections and all the information has been cross-checked by verifying with at least two independent sources.

1. The Blue Spruce Company did occupy both Buildings 651 and 652 in Raritan Center during the early 1970's.
(Copies of Certificate of Occupancy enclosed.)
2. While normal manufacturing could not occur in these buildings, storage, formulating and mixing, and packaging of various pesticides did occur.
3. Spills and waste materials were discharged through the wooden floor boards and any sampling for hazardous wastes should take place beneath the building proper or in natural drainage from the building.

ATTACHMENT C

Mr. Gerard Burke - continued

4. Because of the nature of other materials known to be at the old Chemical Insecticide Corporation site in Edison and the knowledge that many of the same materials were probably at the Blue Spruce site, further sampling for other pesticide wastes besides dioxin must be done by the State of New Jersey before N.J.D.E.P. forgets about this site and assumes it is safe.

It is very important that this office be contacted in the future as regards sampling and inspections of the Blue Spruce site by your department.

We anticipate your further cooperation in these matters and would be appreciative of your prompt attention to the same.

Very truly yours,

John Grun
Assistant Health Officer

Re: Buildings 651 and 652
Raritan Center
Edison, N.J.

Dear Mr. Burke:

Pursuant to your letter of July 22, enclosed herewith is a copy of the analyses from Environmental Testing and Certification (ETC) of samples taken at Building 652, which indicate no dioxin contamination.

Upon examination of our records, we find that Blue Spruce Company leased only Building 652 and did not lease Building 651. We have no record of any occupancy of any of our buildings by Chemical Insecticide Corporation.

We will attempt to discover any occupants of Building 652 subsequent to Blue Spruce Company, but are doubtful as to there being any complete record of the occupancy of that building.

Very truly yours,

Peter H. Cook
General Counsel
